GUARANTEE

54 years of Satisfactory Service

We guarantee all of our plants to be exactly as described in this Catalog. Fresh pulled day order is shipped and packed to carry to your home in good condition; claims to the contrary must be made immediately upon receipt of plants. You will receive full count, no runts, no diseased plants. We grow our plants from the very best seed obtainable. We use seed from leading seed growers such as Asgrow, Burpee, Ferry-Morse, Francis C Stokes and others.

We send you only the highest quality plants and gladly stand back of them. After the plants are delivered in good condition, the future progress, thereof is beyond our control and further results cannot be guaranteed. Weather, soil and care also influence crops, so in no case shall we be responsible for any amount beyond the purchase price.

P. D. FULWOOD COMPANY

We Appreciate Your Order—It Will Receive Prompt Attention
 Planting and growing instructions sent free with each order.

Unfavorable weather conditions could cause price changes without notice.

Dear Sir:

Must write about my cabbage plants. They were really nice and every plant turned out a nice, hard head.

Thanks, Mrs. J.P., E. Grand Forks, Minn.

READ WHY THOUSANDS OF CUSTOMERS PREFER FULWOOD'S FIELD GROWN VEGETABLE PLANTS

For 54 years we have been growing the very finest, field grown vegetable plants and shipping to all parts of the United States and into Canada.

We use the very best seed from such well known firms as W. Atlee Burpee Seed Co., Ferry-Morse Seed Co., and Asgrow Seed Co.

We have 2500 acres of land—all under irrigation—just to grow plants for you.

Plants are packed and shipped the same day they are pulled.

Our plants are grown in the open field and on sterilized soil. They are weather hardened, sturdy plants that grow and produce better than hot-house or home grown plants.

Our farms join fences with the Georgia Costal Plain Experiment Station and the Georgia Department of Entomology. We have their constant advice and supervision and inspection service.

You will find us well rated in the following reference books. Dun and Bradstreet, Inc., The Packer Red Book; The Produce Reporter Blue Book. Our local bank—The Bank of Tifton.

 blank envelope enclosed.**

FULWOOD'S CABBAGE PLANTS

READY SEPT. 1ST. TO JUNE 30TH.

FROST PROOF

Certified by
State Department
of Entomology

RED ACRE: (Y.R.) 75 days. The earliest developing Red Cabbage. Even in its earliest stages takes on a solidity that is remarkable. Round head, very solid, splendid color. Diameter to 7 inches. 4 lb. head.

SAVOY, CHIEFTAIN: 88 days, 5 lb. head. Crinkly leaf. Leaves are broad and rounded. Dark olive green in color. Medium large drumhead type, rounded on top, flat at base. Firm. Stands a long time without bursting.

EARLY COPENHAGEN: 66 days, 3 lb. head. Most widely used shipper where earliness is essential. Uniformly round and firm with clean white interiors. Gray-green leaves.

GOLDEN ACRE: 64 days, 3 lb. head. Uniformly round, clear white interiors.

FERRY'S ROUND DUTCH: 71 days, 5 lb. head. Shows considerable tolerance to mildew injury and cold weather. Almost ball shaped, firm high quality. Slow to develop seeders.

CHARLESTON WAKEFIELD: (Y. R.) 71 days, 4 lb. head. Sharp head variety desirable for home garden.

RESISTANT DETROIT: (Y.R.) 68 days, 3½ lb. head. Yellows Resistant strain of the Golden Acre. Slightly later and larger.

MARION MARKET: (Y.R.) 72 days, 4 lb. head. Similar to Copenhagen Market, but larger and later maturing plant. Heads round and firm.

GREENBACK: (Y.R.) 74 days, 5½ lb. head. A new cabbage in the Round Dutch class. Slow to produce seed stalks. Especially recommended in market and shipping for areas infected by Yellows.

RESISTANT GLORY: (Y.R.) 77 days, 6½ lb. head. Heads round and firm.

GLOBE: (Y.R.) 80 days, 6½ lb. head. A Yellows resistant strain of the Glory of Enkhuizen type.

WISCONSIN ALL SEASONS: (Y.R.) 90 days. 9½ lb. head. Large, drumhead, kraut cabbage.

WISCONSIN BALLHEAD IMPROVED: (Y.R.) 100 days. 7½ lb. head. Compact heads and good keeping qualities make it valuable for shipping and kraut.

COLLARD PLANTS

GEORGIA BLUE STEM: 75 days. The original variety of non-heading type, used for greens in the South. Plants 2 to 3 feet tall. Can stand more cold than cabbage.

VATES: 80 days. Non-heading. Slow-bolting variety has broad, thick, glossy leaves. Will stand the cold well.

FULWOOD'S ONION PLANTS

GENUINE FROST PROOF

READY OCT. 1st to June 30th

These are frost-proof and can stand temperatures as low as 20 degrees. Will produce 4 to 6 weeks earlier than onions grown from seed or onion sets.

YELLOW SWEET SPANISH (UTAH STRAIN)

Bulbs very large, globular, deep amber-orange; flesh white, firm and mild.

WHITE SWEET SPANISH (UTAH STRAIN)

Very large, globular, glistening white bulbs.

Gentlemen:

We have been using your good plants for a number of years. Last year we set out 2000 of your nice onion plants and harvested thirty bushels.

Yours truly,
J.A.R., Mt. Clemens, Mich.

CRYSTAL WHITE WAX

Very early flat onion. Flesh white, sweet and mild.

YELLOW BERMUDA (EXCEL 986)

Bulbs rather small, flat, light yellow; mild, white flesh.

PRICES ON FROST-PROOF ONION PLANTS

Parcel Post Prepaid	Express, Charges Collect

CAULIFLOWER PLANTS

FROST PROOF

Ready March 1st to June 30th

SNOWBALL Y:

65 days. A Selection similar to Snowball X but more vigorous and somewhat later maturing. Plants are large, leaves numerous, fairly erect, medium green. Heads are of uniform size and maturity—large, smooth and heavy. Because of vigor, this strain has proved very reliable under adverse growing conditions.

LETTUCE PLANTS

Field grown plants—Ready March 1st to June 30th

PLANTS FROST PROOF

GREAT LAKES 6238: Is resistant to tip burn and stands up well in hot weather. Will stand 20 degrees. Makes head in about 65 to 70 days. Use very rich soil. Will grow well in all parts of United States.

BROCCOLI PLANTS

FROST PROOF

Ready March 1st to June 30th

DeCICCO: An extremely early strain producing large heads ready for market ten days to two weeks ahead of Early Green Sprouting. Also furnishes a high percentage of side shoots or sprouts excellent for bunching or for freezing. Plants medium tall, light green in color, and very productive. Our stock of this strain has been carefully selected for uniformity and can be highly recommended as the best early strain of Broccoli obtainable.

Best varieties selected to produce well in all parts of the United States.

See rates for shipments by airplane on pages 14 and 15.

Do not order plants C. O. D. as this will cost more money and shipments are sometimes delayed.

Growers and Shippers of High Grade Vegetable Plants Since 1909

54 YEARS OF SATISFYING SERVICE

ORNAMENTAL HOT PEPPER PLANTS

Ready March 1st to June 30th.

Plants Sturdy, Well-Rooted, Colorful and Decorative

A fascinating, colorful, potted house plant. Compact plants with a profusion of cone-shaped fruit that is first green, later turning purple and then red. Can be used for seasoning. Set plants in pots for a beautiful, decorative house plant. (Use pot measuring 6 to 10 inches across). Will last for several years if watered and cared for properly.

Can be planted in the yard in flower bed after danger of cold weather—will make colorful border. Will have white blossoms, green, yellow, purple and bright red fruit all at the same time.

See Prices Below—Same as Cocktail Tomato Plants

Now YOU CAN GROW TINY COCKTAIL TOMATOES IN THE HOUSE IN FORTY FIVE DAYS

Ready March 1st. through June

**FIELD GROWN WELL ROOTED HARDY PLANTS
SHIPPED READY FOR POTTING**

A novel miniature tomato that can be raised as a colorful plant in the home in a flowerpot 6 to 9 inches, or in a window box. Dwarf and compact, growing to a height of 6 to 8 inches and only about 14 inches across. This is the earliest of all tomatoes and is loaded with clusters of bright red fruit that are nearly round and are $\frac{3}{4}$ to 1 inch across. Tomatoes have fine flavor and are ideal for garnishing, or in salads. Very colorful when potted and a pretty sight in flower garden, too. Can be put in the yard after danger of cold weather.

Planting and growing instructions with each order. Plant anytime.

Fascinating! Tasty! **MINIATURE COCKTAIL TOMATOES**

**Be Safe—Be Sure

FULWOOD'S *Certified* TOMATO PLANTS

Not Frost Proof

Certified by the State Department of Entomology

Ready March 1st to June 30th

TOMATO VARIETIES:

VALIANT: 69 days. Adapted to short season areas and early market. Plant sparse and open; fruits bright scarlet; large globe shaped.

RUTGERS: 80 days. An excellent all-purpose variety. Partially resistant to fusarium wilt. Fruit globular, bright red, smooth, with thick walls and small seed cells.

WILT RESISTANT TOMATO VARIETY:

CAMPBELL'S NO. 146: (W.R.) 75 days. A standard (Rutgers) type vine, medium early large globular fruit (larger and deeper than Rutgers), fusarium wilt and mosaic resistant with some resistance to cracking. A very good tomato for the market trade and garden use, particularly in wilt infested soils.

TOMATO PLANTS

NOT FROST PROOF

Certified by State Department of Entomology

Field Grown Plants—Ready March 1st to June 30th

F2 OF HYBRID STOKECROSS TOMATO PLANTS Grown from seed produced by Francis C. Stokes Company.

STOKESCROSS NO. 1

69 DAYS

Recommended for green-wrap, for vine ripened, and for processing. Fruit size, 6 ounces.

STOKESCROSS NO. 5

77 DAYS

For the fresh market or for the canner. Has a long harvest and will maintain its quality throughout the season. Fruit range 5 to 6 ounces.

FIREBALL: Earliest Tomato Known. 62 days. Vines small and open and can be set 1½ to 2 feet apart. Early blossoms set large clusters even in cool weather and fruit ripens quicker from pale green to bright red. They are good size smooth, globe shaped and are unusually firm. Flavor is mild—not acid or sour.

HOMESTEAD: (Wilt Resistant) 83 days. A uniform plant. Less spreading and dense growth. Very productive.

MANALUCIE: (Wilt Resistant) 90 days. Resistant to Fusarium Wilt and certain leaf infections. Developed as a shipping variety for Florida. Has proved excellent for home gardens on Long Island and New Jersey where fusarium wilt is a problem. The vines are tolerant to early blight, black spot and nematodes. Fruits rich scarlet red and nicely rounded. Interior firm with few seeds and thick walls.

GLAMOUR: 77 days. Large crack-free tomatoes. Succeeds on stakes as well as on ground. Fruit big and solid, slightly flattened globe shape. Rich Red throughout and mild flavor.

BURGESS CLIMBING TRIP-L-CROP: Famous the country over with many superior qualities. Vines grow rapidly to a height of 10 to 18 feet when grown on a trellis. Can be grown in bush form. Large crimson fruit, solid, with meaty centers and small seed cells. Excellent for slicing and canning.

Complete planting and growing instructions in each package.

PEPPER PLANTS

Field Grown Plants—
Ready April 1st.
to June 30th.

Not
Frost Proof

SWEET PEPPER VARIETIES

YOLO WONDER: (Sweet) 78 days. Resistant to Tobacco Mosaic. Useful for shipping and market garden.

CALIFORNIA WONDER: (Sweet) 72 days. Leading market garden and shipping variety. Extremely uniform, high quality for any use. Sweet and mild.

OAKVIEW WONDER: (Sweet) 65 Days. An outstanding strain for shipping and home and market garden. Earlier and more productive than California Wonder but similar in shape and size.

SWEET BANANA: (Sweet) 70 days. For home, processing, and market. Plants vigorous and erect. Shaped like Hungarian Yellow Wax but more rumpled. 7 inches long, 2 inches thick.

KEYSTONE RESISTANT GIANT: (Sweet) 70 to 75 days. Tobacco Mosaic Resistant. Mostly 4 lobed, thick sweet flesh. Deep green; turns red at maturity.

HOT PEPPER PLANTS

Not Frost-Proof
Ready
April 1st to June 30th

HUNGARIAN WAX: A Hot Pepper. Yellow then changes to orange, then to bright red, use when any color.

LONG RED CAYENNE: (Hot) 68 days.

A leading variety for pickling, canning and drying. 5 inches long, 1/2 inch through, tapered: deep green becoming bright red. Very pungent.

FULWOOD'S

PLANT AIDS

FOR BETTER GARDENING

ALL PURPOSE TOMATO AND GARDEN DUST SPRAY

In squeeze duster, 8 oz. size, postpaid \$1.29
One pound can (Enough to refill your squeeze duster twice), postpaid 1.50

Blossom-set

**Make TOMATOES Ripen
1 to 3 WEEKS EARLIER!**

You'll pick **RIPE** tomatoes. **WEEKS EARLIER** than your neighbor! **BIGGER** yields of **LARGER, MEATIER**, more **DELICIOUS** TOMATOES, **SEEDLESS** TOMATOES, too!

NO-SEED HORMONE

Easy To Use!

Just Spray!

STOPS BLOSSOM-DROP!

MAKES BLOSSOMS SET FRUIT!

Early tomato blossoms often drop off the plants without setting fruit if they are not pollinated properly, especially early in the season when nights are cool. **BLOSSOM-SET** keeps blossoms on the plants; starts fruit development immediately by chemical stimulation of the flowers. These flowers set fruit instead of dropping off; develop into ripe tomatoes **WEEKS EARLIER** than unsprayed flowers. The tomatoes are larger, meatier, firmer, and better tasting. **YOU'VE NEVER TASTED SUCH WONDERFUL TOMATOES**; with better shape and color and more on each plant. Many are **SEEDLESS** because fruit is set chemically, not by pollen.

Convenient, easy way to spray. Just push the button and — **WHOOSH** — as easy as that! 12 oz. ready-to-use can (season's supply for 100 plants) . . Postpaid only \$1.95.

PLANTABBS

Complete Plant Food — Easy to Use. Everything that grows in soil grows better with Plantabbs.

Plantabbs contain in concentrated form the same rich food and fertilizing elements used by professional plant and flower growers, landscape gardeners and truck farmers. These clean, odorless, "nuggets of nourishment" make everything that grows in soil healthier, bigger, more beautiful. Will not burn or damage even the tenderest plants.

Nothing to measure or spill. Every week or 10 days, just push a Plantabb into the soil 2 or 3 inches from stem of plant. Water or let rain dissolve tablet. If you prefer liquid feeding, use one Plantabb per quart of water.

PRICES: PLANTABBS, POSTPAID

200 Plantabb Tablets for \$1.00

1000 Plantabb Tablets for 3.75

Use Plantabbs For Beautiful Plants. For Beautiful Flowers. For More Vegetables — All thrive on Plantabbs. Proved through successful use for over 35 years. Thrilling results.

Terra-Lite®

VERMICULITE SOIL CONDITIONER USED MANY WAYS ALL YEAR 'ROUND

Perfect soil conditioner for vegetable plants, flowers, potting plants, lawns, trees and shrubbery. Mix Terra-Lite with soil around plants to lighten and aerate heavy soil, give body to sandy soil. Promotes healthy and faster root growth. Terra-Lite holds air, water, fertilizer at the roots, where it's needed. Reduces watering needs and provides better drainage, lets roots stretch and grow. Keeps down weeds and prevents soil crust. Since Terra-Lite is a sterile material, damping off is virtually eliminated.

4 Qt. Bag, weight $\frac{3}{4}$ lb., Postpaid, with enough fertilizer free to give your plants a quick start.

1—4 qt. bag, Postpaid \$1.25, with free fertilizer.

2—4 qt. bags, Postpaid \$2.25, with two packages of free fertilizer.

PLASTIC MULCH

BLACK POLYETHYLENE PLASTIC FILM

The Modern Way To Mulch

Cultivating and weeding is eliminated. Protects plant leaves and fruits from soil, soil-borne diseases and insects. Conserves soil moisture. Soil temperatures can be raised about 10 degrees, resulting in more rapid growth, earlier maturity, and increased yields.

After your garden has been prepared and fertilizer worked into the soil, lay this black polyethylene plastic flat on the ground. Slits are made in the film at the location the plant is desired. The plant is set through the slit. Individual pieces of plastic film, already cut, measuring 12 inches square, can be used for each plant. Or, rolls of film 12 inches wide and any length can be put down between the rows in your garden. Weight the edges down with soil. Have the best garden ever. It is re-usable next year.

**PREVENTS WEED GROWTH • INCREASES YIELDS • CUTS LABOR COST
PROMOTES EARLIER MATURITY • CLEANER, BETTER QUALITY CROPS**

One dozen, ready cut mulches, 12 inches square, ready to go around each plant, Postpaid . . . 60¢ per dozen. In larger quantities, any length, 12 inches wide only, Postpaid . . . 3½¢ per foot.

AMAZING PLANT PROTECTOR

Paxco

HOT HOUSES

**For the Production of
Earlier and More Profitable Crops**

**PRICES: Prepaid—
ORDER NOW !**

EARLY CROPS—by planting earlier and speeding plant growth.

STRONG & STURDY—heavy duty, treated, reinforced with wire.

LONG PROTECTION—12" diameter, 11" height gives long protection from frost, wind, hail, insects, etc.

50 Hot Houses, with Cardboard Setter	2.25
1,000 Hot Houses with Cardboard Setter	25.00
Metal Hot House Setter, Prepaid	3.45

ORDERING AND SHIPPING INFORMATION

All Plants Are Grown By Us And Are Pulled And Packed The Same Day They Are Shipped.

For Special Free Offer On Early Orders See Back Of Order Blank Envelope Enclosed.

HOW TO ORDER. You can send in your order by mail, telegraph or telephone. Our Telephone number is Tifton, Georgia, 382-6061, Area Code 912. Be sure to note that all parcel post prices quoted are postage prepaid. All express prices quoted are F O B Tifton. Do not order plants C O D as this will cost you more money in extra C O D fees and shipments are sometimes delayed. The best way to send money is by check, Postal Money Order or by Express Money Order. If you send in your order well in advance—stating the date you want shipment made—it will help us to give you better service. We guarantee the plants to reach you in fresh planting condition.

TRUCKLOAD LOTS. We load hundreds of trucks coming to our fields every season. Combine orders with your neighbors and haul plants on your own truck. Call us for special prices and information. It can be a real savings and you get the best possible plants.

TRUCK DELIVERY FROM TIFTON. We have local Truck Brokers that are covered by insurance that we can hire to deliver orders of four hundred thousand or more plants at any time to any destination. This trucking cost is considerably less than Railway Express.

PARCEL POST OR RAILWAY EXPRESS. Small orders for plants (about 2,000 and less) are usually shipped by Parcel Post and larger orders (approximately 2,000 plants and more) are shipped by Railway Express. We use special made boxes and the best packing methods which have been tested and recommended by the United States Department of Agriculture.

CONTRACTS. We make contracts ahead to grow special varieties for some of the largest growers and canning companies in the United States and Canada. If you want as many as 500,000 plants of one variety we will be glad to make a special contract with you. It will assure you delivery of plants on the date you want them.

AIRPLANE DELIVERY. Orders of 5,000 plants or more can be shipped by Air Freight. You can order plants one day and get them the next day at your nearest major airport. It will cost approximately 50% to 75% more for air transportation than Railway Express. All plants shipped by air must be hand graded so be sure to add 65¢ per thousand to the express price quoted. This insures top quality, all uniform size plants that are guaranteed field fresh.

The charge for air freight is a combination of the Motor Freight rate from our Tifton plant to the Atlanta Airport, plus the low airport-to-airport air freight rate. You may pick your shipment up at destination. Your shipment will be routed from Atlanta for the best and quickest delivery and the delivering carrier will notify you on arrival.

All plants weigh about 20 lbs. per thousand except onion plants which weigh approximately 6 lbs. per thousand. You will be charged for the actual weight of the plants.

If for any reason your order is not shipped as scheduled we will wire you.

If your order is not received as scheduled call Delta Airline Freight Office, Atlanta, Georgia, Telephone POplar 6-5315.

The cities listed below are some of the points served by direct Air Freight service and the approximate cost per hundred pounds.
